CONSCRIPTION OF WEALTH

plus and construct of the war and continually called for stronger action, but when voluntary recruiting failed and the: Premier and continually called the premier application of the continual called the premier and partiament at once began to hedge. Constription of man power is unfair, they allege, without "constription of wealth."

of wealth" was adopted as a means to raise up enemies against the gov-erament of the day, if possible. Led by Sir Wilfrid Laurier, the Liberal party thus far refuse to assist in continuing the campaign or anasyr criticism. There is definite nation building work to do in this critica period when Canadian blood is be-ing thed so Treely on the plains acc ing thed so freely on the plains and ridges, of Elanders—a time when perty politics should be forgotten in united, patriotic effort to afford adequate support to the boys on the firing line and assist the Allies with food and munitions. Will the Liberats continue to stand aside Liberals continue to stand aside and nurso their petty political grievances at a time like this when the very existence of Canada as a nation is menaced.

"Conscription of wealth," forsooth, has not the government been tightening the screws of taxation as rapidly as possible without kill-ing industry altogether. For in-stance, in 1915 twenty-two firms

and the same arms will pay year \$11,101,402,57.

Giber measures along the line of conscription of wealth already taken by the government include:

(1) The appointment of a Fuel Controller, who has already taken on the western mines and over some of the western mines and a operating them by a governmen

ommission.

(2) The appointment of a Grain
commissioner, representative of all
lasses in the population, with comlete authority over the distribution

and prices of grain.

(3) The appointment of a Food Controller with dictatorial powers with respect to the transportation, storage and prices of food com-

nodities.

(4) The restriction of Canadian apper exports and the fixing of an aubitrary price at which the mills must furnish white paper to the anadian publishers.

If the Liberal critics would take

than by this ceaseless chatter than by this constraint should do.

They have the opportunity to be part and parcel of the government which is more h power to act, which is n

Must he go to hotels for good coffee?

CANADIAN coffee-lovers often think that the good hotels have a monopoly on good coffee. The fact is that you — the housewife —can buy the same kind of coffee as the best hotels use. And if you can follow the directions, you can make this coffee in the same way.

Just buy a can of Royal Blend—the American coffee—and make your husband think more than ever of his own home.

YOU MAKE IRONING A PLEASURE

Just think how much easier your ironing would be if you could use ONLY ONE IRON instead of four or five—one iron which gets hot in a very short time—and stays hot ALL THE TIME.

Imagine the case of being able to from out on a shady, cool back porch or any place in your house where you have a Hydro light.

A HYDRO IRON

will bring all these comforts to your home and banish the ironing fire-then at the end of the day you'll feel coor and comfortable, instead of-tired and fagged out.

It costs about 2 cents for each week's ironing. The Hydro Iron is guaranteed for 5 YEARS—The regular price is \$4.00.

We will buy back old irons

(1) CHANGING IRONS?

Count them some time and then you will know one reason why ironing tires you out. Just think of all this extra labor saved by using a Hydro Iron—because then you don't need to change Irons.

A Hydro Iron gets hot almost as soon as the current is turned on—and then it stays hot as long as you need it. You can control the heat to any degree by the contact plug on the iron.

Remember—all the heat is in the iron—none in the room—you need no roaring fire.

The iron balances perfectly in the hand—the weight is sufficient to enable you to iron without fatigue.

Why not try a Hydro Iron in YOUR HOME today—and convince your-self that the Hydro way makes comfortable work out of Ironing day?

IRONING A PLEASURE

Just think how much easier your froning would be if you could use ONLY ONE IRON instead of four or five—one from which gets hot in a very short time—and stays hot ALL THE TIME.

Imagine the ease of being able to iron out on a shady, cool back porch or any place in your house where you have a Hydro light.

A HYDRO IRON

will bring all these comforts to your home and banish the ironing fire-then at the end of the day you'll feel cool and comfortable, instead of tired and fagged out.

It costs about 2 cents for each week's ironing. The Hydro Iron is guaranteed for 5 YEARS—The regular price is \$2.00.

We will buy back old irons

Sad Irons (2 from a customer) 25c. Gas " (1 " ") 50c. Electric " (1 " ") 75c. For a limited time we will allow you a cash credit on the purchase of a new Hydro Iron. The old irons will be Iron. The old irons will be sold for scrap and the money given to the Red Cross.

Why Wait for War to learn real food values? It is what you digest, not what you eat, that furnishes strength for the day's work. Many foods tax the digestive powers to the utmost without supplying much nutriment. Shredded Wheat Biscuit is all food and in a form that is easily digested. It is 100 per cent. whole wheat. For break-fast, dinner or supper it takes the place of meat, eggs and potatoes. You don't know how easily you can do

without meat or potatoes until you try it. Delicious with sliced bananas, berries, or other fruits, and milk.

FOR CANADA ON FOR BARTY

"It taxes one's faith in men to ment put up against compulsory service," said the Masonic Grand Master in his address at the open-ing of the Grand Lodge in Belle-ville on Wednesday.

A prominent Liberal aditor has well said that all Canada west of the Ottawa river is a unit with only one thought or wish, and that the the war as quickly as may be, that the only place he found any politics in that wide stretch of country was the seat of Governcountry was the seat of Govern-ment, Ottawa, and there parity politics were blazing as fercely as if there were no mad war lord threatening the peace and liberty of the world and no Canadian graves in Flanders pointing to a data was missingled.

Crisp Comment

Sir Wilfrid Laurier originated the phrase "opening the deer of office with's bloody key," when he indignantly repediated the suggestion that he would seek political advantage through the war. The "illoody Key" of a war time election is now dauging before the electron of Canada and Laurier is the man responsible for its amouganese.

Alleged Profits of The William Davies Company in 1916 on Bacon, as Indicated by Department of Labor to be Five Cents per Pound, Untrue:

Actual Profits Two-Thirds of a Cent Per Pound

THE statement issued by the Department of Labor concerning the business of The William Davies Company Limited has been given widespread circulation throughout the country and provoked rublic unrest.

Whatever the technical wording of the report was, the effect has been that the newspapers have published that "the profits on Bacon alone" of this Company "for 1916" were about "five millions of dollars." This interpretation of the efficial report is not surprising in view of certain statements that the Commissioner of the Cost of Living makes. The Commissioner is reported as saying that "There were two individual cases of profiteering in 1916 and that had these cases occurred since the passage of the cost of living Order, In Council, he would consider it his duty to recommend that the facts be laid Lefore the Attorney General for consideration as to their criminality, The situation created by such erroneous and damaging statements is serious as emanating from a Government official, from whom one looks for not only accurate statements but correct conclusions.

The William Davies Company, being a private concern, has followed the practice of all private corporations, except when it made issue in 1911, in that it has not published reports of its assets and liabilities or profit and loss. The present circumstance, how a bond issue in 1911, in that it has not published reports of its assels and liabilities or profit and less. The present circumstance, however, in which a Government Official has led the public to salse conclusions, makes it advisable for this Company, for both the public in terest and its own interest, to publish particulars of its business as well as point out the error of the statement of the Government Official.

The Studebaker Car A Safe Investment

TUDEBAKER cars are built in Studebaker factories at Walkerville, Ontario. They are built with full knowledge of Canadian roads and conditions throughout the Dominion. The men who build them are skillfully, trained

Their whek is earefully supervised by the most expert engineers in the automobile industry.

The materials used are tested and proved in the great Studebaker laboratories. Many materials have been developed by Studelakez solely for Studebaker purpose-

ker purpo No car at any price uses higher grade steels than Studebaker.

No our at any price uses ingine; grace steem than setuconact.

Studelaker used drop forgings instead of castings at every possible point—this insures lightness and great strength.

The Studelaker motor has been developed by four years experience with the same basic design in the hands of thoosands and thousands of owners in every part of the world. It is an evolution, not an experiment.

It is the most clean cut, accessible motor you ever, Its valves are noiseless and do not require frequent lubrica-tion: It is probably the most powerful motor ever used in a car of such light weight as the Studebeker car.

Its power is free flowing and flexible. Its response to the throttle is frutant.

It is very economical in its consu The Studebaker electric system is simple, accessible, never failing. It is the best electric system that the highly

organized skill of Studebaker and Wagner engine ing in close harmony could devise.

All wiring it easy to get at—all wires are protegrease and damp by flexible steel conduits. No matter what the climate the Studebaker starter never fails. It exerts a cranking torque equal to two hundred pounds.
It always starts the motor.

Studebaker cars are big and roomy. The front seats are individual and form-fitting, adjustable forward and back to all leg lengths, the one next the driver ii revenible—its occupant may face the tonneau if desired.

The tonneau seat is 48 inches wide—the ideal width for a five passenger car.

There are two auxiliary seats, arm chairs in fact, ator-under the tonneau seat, enabling you to carry extra pa sengers in comfort if desired.

rengers in compost it desired.

These chairs are standard in both FOUR and SIX cylinder touring models.

All Studebaker upholstery is of genuine, high-grade, band buffel leather.

Studebaker doors are wide opening—easy to enter or leave.

These are only a few of the qualities that make the Spude-triker our the great value car of Canada today. No other our at anywhere near the Studebaker price offers them all.

You owe it to yourself to let us prove in an actual den tion the quality and value of the Studebaker car. We are at your service at any time.

There will be no change in Studebaker models this year, but the increased cost of materials and labor may force Studebaker to make an advance in prices at any time without notice.

Big Canadians of both parties are taking their stand for national ideals, and although the political machines are well entrenched and equipped there is still hope for the triumph of the right.

WHO IS THE MAN?

ween Sir Robert Borden and Wilfrid Laurier, Dr. Michael Clark, the Liberal statesman from Clark, the Liberal statesman from Red Deer, in his notable speech in the House of Commons last Tues-day, had no difficulty in making a choice. If, he said, Borden and urier alike were determined to win the war there would be no is sue, and the only question for the lectorate to decide would be which roceeded to answer for the elec-rs in the following words:

But the question will inecitiably be asked, if you determine to settle this on the line of personalities: Who are the people to estitution to the line of personalities: Who are the people to established to establish the settle than the line of personalities: Who are the people to established to establishe

Laurier is not content to per-mit his political sun to sink behind the fog bank of Quebec provincialism and little Canadianism without a struggle. He seeks to hold Que-bec as the corner-stone of his polibee as the corner-stone of his poli-tical power and at the same time in placate the other provinces and en-deavor to hypnotize patriotic citi-sems into the belief that 'he is a statistimist of the first rank. Every political 'trick is 'being played to reinstate Laurier in the affections

in the loyal city of Toronto. It is highly significant, however, that there were no votes taken and the there were no voter taken and the result of the meeting may or may not have been and the prepared statement indicated. Goorge P. Graham, as master, of correnoings, certainly played his part well. He opened the meeting with a well-prepared speech, made in Chulwan and diamissed the meeting after the entire forty-three had been premitted, yes encouraged to speak, and experty responded.

Save the Food and Serve the Empire!

The Average Canadian Family Wastes

INTELLIGENT economy in the kitchen can do much to prevent the threatened world saming—can counteract the effect of high prices—and can replace growing debt with systematic saving.

Careful investigations show that before the war the average British family wasted 25% of their food—and we Canadishs were even more extravagant.

This waste is not in a few big things, but in many little ones, each, we used to think; too small to bother about—such as carelest besling of vegetables and fruit—failure to make good use of dripping and "bet-overs"—and such others as will occur to every thrifty housekeeper.

For the Empire's sake as well as your own, hunt up and cut out these leaks I. You'll be helping to relieve the food shortage—saving your own money—and putting yourself in a position to buy Canadian War Savings Certificates and help win the war.

War Savings Certificates are issued in denominations of \$25, \$50 and \$100, to be repaid in three years at full face whee. They cost \$21.50, \$43 and \$36 respectively, at all Money Order Post-Offices and Banks, thus yielding over 55 interest. Should you need 1, you can get your money back at any time.

Do You Put Winning The War Ahead of Everything Else?

Are you willing to have party politics dropped until after the war has been won?

Do you believe that Canada must "carry on" to the

end; and support civil/zation with men, money, munitions and food? Ought every ability, and activity of Canada to be

devoted to winning the war?

Are you determined that honor, duty and patriotism shall prevail over selfishness and indifference?

Shall we support those sons, those brothers, those husbands, those fathers who are fighting for us at the front, and shall we send them the aid needed to save them from being killed alone and unaided? Of course you answer YES. Then fill out and mail this coupon and get your friends to do the same.

New Senators Are Appointed

OTTAWA, July 26.—The Military

That tremendous influence is being brought to bear upon Senator Boetock and his following to stand by Sir Wilfrid Laurier, who appointed them is undoubted. Whether or not they mill yield to this influence is uncertain. Senator Bostock refunes to give any indication of his position.

A number of Senatorial appointments are exceeded to the control of the position. a number of Senatorial appointments are expected to-day. The names of a first group include Meara-Piaher and Blain, M.P.; L. McLean K.C., of Winnipeg, and B. O. Lesperance, ex.M.P., Quebec.

Help to Save Canada's Fruit Crop A Practical Thrilt Suggestion

This year, as never before every quart of Canada's fruit crop should be used to the very best advantage. Though it all ripens within four months, it can be made to supply every table, every day in the year, at moderate cost.

Canning and preserving, done at home at the ne when each fruit is cheapest, provide in delicious

and economical form the daily fruit so necessary in a wholesome diet. Fruit put up at home is much cheaper than that which you buy, and the slight increase in its cost, due to the higher price of sugar, is small compared with the mounting cost of other foods.

Mrs. M. Collins and daughter iou of New York city are the curof Mrs. F. Buckley, Murney Street.

In Canadian homes, for the last Sixty-Years, REDPATH Sugar has been the standby for preserving. It is always absolutely pure, and can be depended upon to do everything that sugar can do to ensure success. CANADA SUGAR REFINING CO., LIMITED, .

Liberals who objected so streng Liberais who objected so strenu ously to the conscription of mar power without the conscription of wealth should be more than satis-fied with the Minister of Finance's new Income Tax, which hits hard-est those best able to contribute cash towards war expenses. No doubt this eminently just measure will be attacked by the win-theelection clique as going too far or not going far enough. There is a class of would-be statesmen in Can-ada today who have no clear idea of just what they want except an overwhelming desire to secure the

EXCURSION ROAT NEEDED

The need of a good excursion teamer to serve Belleville was very marked on Civic. Holiday when nundreds of people who wished to sek some cool waterside spot away om the heat of the city were room the next of the city were cooped up for hours on the wharf waiting their turn ou a little boat with a capacity of 230 passengers which made many trips but seem-ingly was unable to reduce the size of the waiting crowd, which was of the waiting crowd, which was constantly augmented by new ar-rivals. Some people waited from ten o'clock in the morning until four in the afternoon for a chance to get on the boat. Parties were divided in the crush and in some instances children were separated from their narrets while lanch from their parents, while lunch baskets were at one end of the route and hungry appetites at the other. It seems too bad that Belleville people are prevented from enjoying the many beautiful water trips for lack of steamboat accor-

Crisp Comment

Eighteen automobiles without "tail' lights were discovered by the policion Wednesday night. If the eighteen auto owners had breded the warning in The Intelligencer they might have avoided this police attention.

The Torreste World, after thirty-seren years as a one-cent daily nest-paper, has been forced to increase the sale price to two cents per copy. The increased cost of paper, materials and librar, since the war began, has riped out the profit line for Canadian ness papers and the only alternative in re-increase prices to meet the heavy cost of production.

George P. Graham's chance of catch-ing a place in the new national ution war government of Canada was not improved any by his "composite" statement of the results of the meet-ing of Liberal M.P.'s and would B's in Toronto.

A war time election two years ago or one year ago woold not have raised more than a ripple on the surface of public affair. An election forced now with conscription as an issue and a province in semi-robellion is about the worst thing that could happen Canada outside of a declaire Hun victory.

Important Information for Automobile Buyers

OU generally appreciate the advice of an expert when you make an important pur-chase or investment. You are glad to get authoritative opinions. You like to feel that your final decision will be right.

Apply this method of buying to your automobile.

Mr. Frank Groch, of the Grodwards Company of Cobalt, Ontario, is an automobile expert. He selfs motor cars. He is a very successful merchant and like all successful merchants realizes that his business rests on the satisfaction of his customers.

Here is Mr. Groch's own story of how he became a Studebaker dealer:

"When I decided to enter the automobile business I looked around for what I called a fool-proof car. Although I am an engineer I had had no experience with cars. I decided that there were four pri-mary points which were funda-

SECOND—the firm must build automobiles in quantities large enough to cut down that vast over-head expense necessary in keep-ing up with the times and making the car fool-proof.

THIRD—the car itself— I ex-amined many cars and talked with many owners in Canada, paying particular attention to the motor.

Of all the cars I examined un-ler the price of \$2000 I felt that Studebaker was the best built and

FOURTH—Service—this term I found to mean many things. Every manufacture had talked it below to be a superior of the product of the superior of the product of the superior of

Ran Studebaker Three Years—Spent \$25 for Repairs

One of the first Studebaker Care

than \$25.00 for repair parts in three years. All other Studebaker
Care sold in my territory have had
ministy low costs for upkeep and
there is no more severe test for a
car than long service on the roads
around Cobalt.

From Detroit / to Palm ach, Florida, Total Car Expense

On December 7th, 1916, I left Detroit with my own Series 18 six cylinder touring car and with seven

in the car drove to Toledo and Columbus, Ohio, Wheeling, West Virginia, through the smo-cov-ered Cumberland Mountains, through Augusta and Savannah, Georgie, Jacksonville and St. Aug-ustine to Palm Beach, Fiorida.

My total expense for the trip for gasoline, oil, washing the our, storage and all other car expenser was \$41.89. That is why I am) enthusiastic for Studebaker."

Significant Facts

When Mr. Groch-entered-the automobile business he had no ax to grind for any particular concern. He chose Studebaker Cars from the entire field because a careful, thorough, scientific in vestigation, aboved him that Studebaker cars were the best value for the money, or the contract of the contract of

For four years Studebaker cars have been giving satisfactory ser-vice to Mr. Groch's customers. His business has grown to large proportions because of it.

It is certainly worth your while to investigate the Studebaker proposition thoroughly before you buy any car. Studebaker cars have made good for thousands and thou-sands of people and will make good for you.

There will be no change in Studebaker models this ye but the increased cost of materials and labor may force Sts baker to make an advance in prices at any time without not "Built in Studebaker Factor". at Walkerville, Ont."

Canadian Patriotism

United Action by a National Government

Half a Century ago Canada was Born-On Thursday and Friday of this week on the eve of the fourth year of the war, at the ARENA GARDENS, TORONTO, the people of Ontario will insist that Canada continue worthy of her birthright.

of her birthright.

A political revolution is taking place, and in this momentous hour, the people speak with finging certainty. Party lines crumble, but courage and patriotism are stronger than ever.

History Will Be Made by This Convention

No man or woman can afford to miss this great event, the union of suc-people for Canada Our Country. The petty differences which in ordinary times have divided us, must disappear for the duration of the war. Wire or write to reserve free badges for the Convention; red for voters on the main floor, blue for our other supporters. Act a tonce as this hall holds only about seven thogsands. Convention rates on all railroads. Get certifi-cates from they capital.

In the Name of our Dead, attend and help make sure that their sacrifice be not in vain. in the Name of our Living, attend and help to
